

Tire Rules

Tour Modifieds

M20's Leftside and M30's Rightside. All cars must purchase (2) Tires per race unless otherwise stated.

Late Models

- Practice tires can be purchased, cannot be used for feature or heat races. These are for practice only
- 5 Race tires can be purchased to start the season, after that 1 new tire can be purchased each week and entered into your inventory. The tire inventory is a running total. Tires are registered to the driver, not the car.
- Tires will be checked at the scales prior to the feature
- All serial numbers must be registered in your tire bank or will be deemed illegal and you will be disqualified
- Any car that shows up after the first 2 races have been completed will only be allowed 3 new right side tires. Only 2 of the tires will be allowed to be used on that night unless you get a flat tire. You will be required to start with used F45's on the left side which are available at the track for purchase(3 maximum)

602 Modifieds

St1 Leftside and St2 Rightside. No Purchase limit.

Street Stocks

Hoosier F45. To save racers money, we will be utilizing used tires that will be available at the track. Four new tires may be purchased opening day and all four MUST be run that day. You can not purchase four tires any other week, even if your first week in 2 months later. One new tire can be purchased per race, serial number will be recorded and it must be run in the feature that day and on the car at tech. All other tires must be purchased from used tire stock with Evergreen stamp.

Four Cylinders

Hoosier 790's
